ABOUT ME

As a Computer Engineering student at Syiah Kuala University, with a strong interest and aptitude in UI/UX design, web development, mobile development, and artificial intelligence. I am actively seeking opportunities to enhance my skills through workshops, courses, campus events, seminars, and organizations. My goal is to contribute to innovative solutions in the field of technology.

EDUCATION

Syiah Kuala University

2022 – now

Department of Computer Engineering (7th semester), Grade: 3.25/4.00

Performed and learning a knowledge in the fields of mobile development, web development, and artificial intelligence.

SMA Negeri 3 Banda Aceh

2019 – 2022

Department of Mathematics and Natural Sciences, Grade: 3.61/4.00

Performed and learning a knowledge in the fields of graphic design and social media marketing.

ORGANIZATION EXPERIENCE

Himpunan Mahasiswa Teknik Komputer (HIMATEKKOM)

Head of the Human Resources Development Division – Banda Aceh

March 2024 – Now

- Enlisted communication and interpersonal skills, leadership and teamwork, problem-solving, event management, negotiation, and mediation.
- Enlisted strong relationships with 10 other student organizations within the faculty and organizing collaborative events.

Badan Eksekutif Mahasiswa Fakultas Teknik (BEM-FT)

Member of the Student Relations Division – Banda Aceh

March 2024 – December 2024

- Enlisted communication and interpersonal skills, leadership and teamwork, problem-solving, event management, negotiation, and mediation.
- Enlisted strong relationships with 10 other student organizations within the faculty and organizing collaborative events.

Himpunan Mahasiswa Teknik Komputer (HIMATEKKOM)

Vice Chair of the Student Relations Division – Banda Aceh

March 2024 – December 2024

- Invented strong relationships with other student associations, alumni, and companies in the technology sector.
- Successfully managed event that increase student participation in association activities by 40%.
- Coordinated relationships among students in organizing program-scale events, such as Computer Outbonding.

Himpunan Mahasiswa Teknik Komputer (HIMATEKKOM)

Member of the Student Welfare Division – Banda Aceh

March 2023 – Februari 2024

- Increased student awareness of the importance of protecting the environment by implementing a duty roster system where up to 10% of students are responsible for maintaining cleanliness and sustainability on campus.
- Helped students who are experiencing financial difficulties by providing information about scholarships, emergency aid, or installment payment programs.

MPK-OSIS SMA Negeri 3 Banda Aceh

Head of the Technology Information and Communication Division - Banda Aceh

Sept 2020 – Sept 2021

- Designed the daily feed for the official Instagram of MPK-OSIS SMA Negeri 3 Banda Aceh. With creativity and design skills.
- Actively created engaging and relevant content, supporting MPK-OSIS's positive image and interactions on social media platforms, thereby increasing the engagement rate by 30%.
- Managed the official website of SMA Negeri 3 Banda Aceh to increase visitors by 25%.

WORK EXPERIENCE

PT PLN (Persero) Unit Induk Distribusi Aceh

Internship – Banda Aceh

December 2024 – January 2025

- Assisted in the preparation and production of the *PodcaStroom* podcast on YouTube, contributing to content creation and technical setup, resulting in an average of 200 views per month and 100 subscribers in the last 1 month
- Developed the *Desa Berdaya PLN UID ACEH* website, handling design, content creation, and ensuring user engagement through an intuitive interface.
- Documented every PLN event by capturing and editing over 500 images and videos, contributing to the creation of a comprehensive digital archive for internal use and public dissemination.

Universitas Syiah Kuala – Banda Aceh

Teaching Assistant – Rekayasa Perangkat Lunak (RPL)

January 2025 – June 2025

- Assisted students in understanding and applying software engineering principles through hands-on laboratory exercises and coding assignments.
- Guided students in debugging and troubleshooting their projects, providing clear explanations and fostering problem-solving skills.
- Coordinated lab sessions and maintained records of student attendance, performance, and progress to assist faculty in course evaluation.

VOLUNTEERING

PEKAN OLAHRAGA NASIONAL (PON XXI ACEH-SUMUT 2024)

Liaison Officer - Banda Aceh

September 2024

- Provided support to ensure smooth coordination, including logistical arrangements, schedules, and addressing participants needs.
- Contributed to the success of PON XXI by ensuring effective communication and high-quality assistance for all stakeholders involved.

IEEE International conference (IC-COSITE 2023)

Committee Member - Banda Aceh

August 2023

- The IEEE International Conference on Computer Science, Information Technology, and Electrical Engineering (IC-COSITE 2023) is an annual conference organized by the IEEE (Institute of Electrical and Electronics Engineers) Indonesia Section.

Bina Islami Aneuk Komputer (BINER 7.0)

Chairperson – Banda Aceh

October 2023

- Successfully led and directed the team in realizing the vision of BINER 7.0 event with the theme "How To Reach Society 5.0 With Islamic Values".
- Managed all aspects of the event, from planning, budgeting, team coordination, to successful event execution.
- Applied the concept of Society 5.0 and how Islamic values can be integrated into it.

AWARDS

Informatics Festival Universitas Syiah Kuala

Finalists UI/UX Design competition in national scale

2023

PROJECT EXPERIENCE

Desa Berdaya PLN UID ACEH Website

Banda Aceh, 2025

- Developed a promotional and informational website for Desa Berdaya PLN in Geuceu Meunara, featuring UMKM products, english courses, and waste bank initiatives.
- Designed an intuitive and user-friendly interface to highlight key features, including product catalogs, course information, and waste bank activities.
- Collaborated with local businesses and the PLN team to gather content, ensuring accurate representation of the community's initiatives and offerings.
- Implemented responsive web design and optimized navigation for seamless access across devices, enhancing the visibility and accessibility of the village's programs.
- Promoted economic empowerment and sustainable practices by creating a digital platform to connect Desa Berdaya PLN with a broader audience.

IePoma: Sistem Pemanfaatan dan Penyaringan Limbah Air Pencucian Beras untuk Penyiraman Tanaman

Using Arduino

Banda Aceh, 2024

- Designed and developed a sustainable water filtration and recycling system using Arduino technology to repurpose rice-washing wastewater for plant irrigation.
- Engineered an automated irrigation mechanism, integrating water quality sensors and an Arduino microcontroller to ensure optimal water usage for plants.
- Conducted system testing and fine-tuning to achieve an efficient filtration process, enhancing its reliability for real-world application in restaurants.
- Promoted environmental sustainability by minimizing water waste and showcasing how simple technology can contribute to eco-friendly practices in daily operations.

Develop “OZS” Apps for Farmer Using Mendix

Banda Aceh, 2024

- Developed of the OZS application, coordinating between the back-end and front-end to ensure an efficient and responsive user experience for farmers.
- Designed key features such as the GPS tracking system and the integration of weather sensors, additionally.
- Developed a Rest API that enables the OZS application to access real-time weather data.

UI/UX Design “VeggieNeed - Jual Beli Sayuran” Using Figma

Banda Aceh, 2023

- Created a responsive prototype of the *VeggieNeed* app in Figma, then gathering feedback from users and the development team to refine the app's functionality and appearance.
- Conducted in-depth analysis of *VeggieNeed* user needs, designing a user-friendly and attractive interface, and collaborating with the development team to bring it to life.

- Ensured that all design elements of the *VeggieNeed* app, such as colors, fonts, and icons, align with the *VeggieNeed* brand identity.

UI/UX Design "Lifegen - Track Your Calories" Using Figma

Banda Aceh, 2023

- Developed an interactive wireframe using Figma to visualize user flow and app navigation structure.
- Ensured that the *Lifegen* app design meets apps accessibility standards to to guarantee the product and avoid the bugs.
